Goal: To alleviate poverty and enhance sustainability in upper catchments by increasing the flow of resources from governments and civil society to poor rural producers, reducing the negative impact of environmental externalities and strengthening the competitive capacity of the poor through greater food security, higher incomes, and better administrative and organizational skills.

Integrating Environmental Services to Agricultural Financial Mechanisms for Promoting Rural Development in the Andes. The Case Study of Fuquene Watershed (Colombia).

Acknowledgments

For providing part of the resources to create the fund for conservation agriculture credits.

For conducting the analysis of willingness to cooperate through the application of experimental economics methods.
