CIAT project Linkages

OUTPUT 1. PARTICIPATORY RESEARCH APPROACHES ANALYTICAL TOOLS AND INDIGENOUS KNOWLEDGE THAT LEAD TO THE INCORPORATION OF FARMERS' AND OTHER END-USERS' NEEDS IN INTEGRATED AGROECOSYSTEM MANAGEMENT, DEVELOPED FOR INTERESTED R&D INSTITUTIONS (421 kb)

Milestones

Learning from PME experiences in Latin America: A strategy to capture the results of development changes at the community level

Experiences in the establishment of community-based participatory monitoring and evaluation systems (PME) with CIALs in Colombia

Critical analysis of a participatory procedure applied to cassava breeding

OUTPUT 2. STRATEGIES AND ORGANIZATIONAL PROCEDURES FOR PR, DEVELOPED (442 kb)

Milestones

Developing a scaling-up strategy for “*Enabling Rural Innovation*” Project

Institutionalization of approaches

Enabling rural innovation in Africa: Integrating farmer participatory research and participatory market research

Developing a collaborative PME research project with the Kenya Agriculture Research Institute: Summary report

Local perceptions of poverty: The case of the communities of Kanko, Tabla Mayu and Primera Candelaria in the municipality of Colomi, Bolivia

Mechanisms for self-financing in community-based research services (CIALs)

Integration of the CIALs in the management and conservation of natural resources in San Dionisio, Nicaragua

Lulo project

OUTPUT 3. PROFESSIONALS AND OTHERS TRAINED AS FACILITATORS OF THE PARTICIPATORY RESEARCH APPROACH (227 kb)

Milestones

Professionals trained in the use of PR tools and methods

Participatory monitoring and evaluation workshop, Toralapa, Bolivia

Promoting a business and market orientation in CIALs from Colombia, Ecuador and Bolivia: Report of follow-up activities to the Second Workshop on “Design of Integrated Agroenterprise Development Projects.” Part 1: Cauca (Colombia) and Ecuador

OUTPUT 4. MATERIALS AND INFORMATION ON PARTICIPATORY RESEARCH APPROACHES, ANALYTICAL TOOLS, INDIGENOUS KNOWLEDGE AND ORGANIZATIONAL PRINCIPLES, DEVELOPED (289 kb)

Extension through farmer research: Local Agricultural Research Committees (CIALS) in Latin America

A participatory procedure applied to selecting and developing forages with farmers (PPSF)

Talks prepared by the SN-3 team and presented at events

OUTPUT 5. IMPACT OF SN-3 PROJECT ACTIVITIES DOCUMENTED (538 kb)

Milestones

Impact Assessment of Local Agricultural Research Committees (CIALs) in Colombia

Impact study of CIALs El Jardín, Las Cruces, San Bosco (men and women), Cinco Días

CIAL experiences with agro enterprises: Linking research to development in Cauca – Project progress report

Poverty and rural livelihoods in Uganda, Malawi and Tanzania: A baseline study of BAPPA project sites

Visitors attended by staff from the SN-3 FPR team, Oct. 2002 - Sept. 2003

OUTPUT 6. INTERNAL PROJECTS AND OTHER INSTITUTIONS SUPPORTED AND STRENGTHENED IN CONDUCTING PR (435 kb)

Milestones

“Sharing learning experiences” - Workshops among organizations that have begun joint work in Central America, CIAT, CIPASLA and community groups in Cauca Province, Colombia”

A methodology designed to promote sustainability of a second-order organization

Indigenous women process potatoes

“Training the future” – Young researchers: Learn how to run a cial.

OUTPUT 7. CAPACITY OF THE SN-3 TEAM, STRENGTHENED (157 kb)

Milestones

FPR team attendance at training events during the working year 2001-2002
