Participatory Methods for Decision Making in Natural Resource Management
Includes 55 originals for transparencies, in paper, for each section.

1. General Introduction, 2. Technical Indicators of Soil Quality, 3. Identifying and prioritizing Local Indicators of Soil Quality, 4. Integrating Technical and Local Indicators of Soil Quality, 5. Integrated Soil Management Strategies, 6. Soil Fair: Integration in Practice

Content

Section 1. General Introduction (499 kb)

1. The Guide on Local Indicators of Soil Quality	
1.1 Reasons for this guide.....	1-3
1.2 The living soil and environment quality standards.....	1-4
1.3 Soil quality as a diagnostic and monitoring tool.....	1-4
1.4 Upscaling : from plot scale to landscape scale.....	1-8
1.5 Soil quality indicators for eastern Africa.....	1-9
2. Objectives.....	1-10
3. Users.....	1-11
4. Learning model... ..	1-11
5. Structure of the guide.....	1-14
6. Opening questions.....	1-16
7. Bibliography	1-19

Section 2. Technical Indicators of Soil Quality (745 kb)

2.1 Introduction.....	2-3
2.1.1 Objectives.....	2-3
2.1.2 Section Structure.....	2-4
2.1.3 Orientating Questions.....	2-5
2.2 Importance of soil.....	2-5
2.3 Factors and processes of soil formation.....	2-5
2.3.1 Soil-forming factors.....	2-5
2.3.2 Soil-forming processes.....	2-7
2.4 Properties of indicators of soil quality.....	2-8
2.4.1 Physical properties.....	2-8
2.4.2 Chemical properties.....	2-10
2.4.3 Biological properties	2-12
2.4.4 Permanent and modifiable properties.....	2-12
Exercise 2.1: Identifying soil formation factors and processes.....	2-13
Worksheet No. 1: Soil formation factors and processes.....	2-14
Exercise 2.2: Identifying factors and processes in soils formation.....	2-15
Worksheet No. 2: Formation factors.....	2-15

Exercise 2.3: Identifying soil formation factors and processes..	2-17
Worksheet No. 3: Formation processes.....	2-17
2.5 Summary.....	2-19
2.6 Bibliography.....	2-19
2.7 Originals for overheads.....	2-20
APPENDICES FOR SECTION 2.....	2-25
Appendix	2-26

Section 3. Identifying and Prioritizing Local Indicators of Soil Quality (514 kb)

3.1 Introduction.....	3-3
3.1.1 Local Indicators.....	3-3
3.1.2 Objectives.....	3-3
3.1.3 Section Structure.....	3-4
3.1.4 Opening Questions.....	3-4
3.2 Methodology to indentify and prioritize local indicators.....	3-5
3.2.1 Group Analysis.....	3-5
3.2.2 Prioritizing indicators.....	3-5
3.2.3 Case studies.....	3-10
Exercise 3.1 Identifying and Prioritizing Local Indicators of Soil Quality.....	3-23
3.3 Summary.....	3-31
3.4 Bibliography.....	3-32
3.5 Originals for overheads.....	3-33

Section 4. Integrating Technical and Local Indicators of Soil Quality (241 kb)

4.1 Introduction.....	4-3
4.1.1 Objectives.....	4-3
4.1.2 Section structure.....	4-3
4.1.3 Opening questions.....	4-3
4.2 Relationship between TISQ and LISQ.....	4-4
Exercise 4.1 Classifying local indicators in technical terms and differentiation between permanent and modifiable properties.....	4-7
Worksheet No. 1.....	4-8
Worksheet No.2.....	4-9
Worksheet No.3.....	4-10

4.4 Summary.....	4-11
4.5 Originals for overheads.....	4-12

Section 5. Integrated Soil Management Strategies (361 kb)

5.1 Introduction.....	5-3
5.1.1 Objectives.....	5-3
5.1.2 Section Structure.....	5-4
5.1.3 Opening Questions.....	5-5
5.2 Classifying Modifiable soil constraints.....	5-5
Exercises in identifying soil constraints and devising integrated soil Management strategies.....	5-11
5.3.1 Case Studies.....	5-12
5.4 Summary.....	5-15
5.5 Bibliography.....	5-16
5.6 Originals for overheads.....	5-17
5.7 Appendix 1.....	5-18

Section 6. Soils Fair : Integration in Practice (628 kb)

6.1 Introduction.....	6-3
6.1.1 Objectives.....	6-3
6.2 Organization of the Soils Fair.....	6-4
6.2.1 Before the Soils Fair.....	6-4
6.2.2 During the Soil Fair.....	6-4
6.2.3 After the Soil Fair.....	6-5
Soils Fair exercises.....	6-9
6.3.1 Group 1: Practicals 1 and 2 - Determining Soil Texture and Consistency.....	6-9
6.3.2 Group 2: Practicals 3, 4 and 5 - Determining Soil Structure and the Presence and Activity of Soil Macro and Micro Fauna.....	6-15
6.3.3 Group 3: Practical 6 and 7 - Determining Soil Colour and Organic Matter Content.....	6-23
Degree of effervescence.....	6-26
6.3.4 Group 4: Practicals 8, 9 and 10 - Determining Soil pH, Presence of Carbonates and Indicator Plant Species.....	6-27
6.4 Summary.....	6-31
6.5 Bibliography.....	6-31
6.6 Originals for overheads.....	6-32

6.7 Appendices for Section 6.....	6-33
Appendix 6.1 - Wallcharts for the Soils Fair.....	6-33
Appendix 6.2 - Farmer's Worksheet.....	6-35
Appendix 6.3 - Answers to introductory questions for the Soil Fair.....	6-36
7. Evaluation Forms.....	6-40
Appendix 7.1 - Workshop Evaluation.....	6-40
Appendix 7.2 - Assessing the Instructor's Performance.....	6-43
Appendix 7.3 - Evaluating the Training Materials	6-46
