Tropical Soil Biology and Fertility (TSBF) Institute: Integrated Soil Fertility Management in the Tropics. 2007. Annual Report 2007. Executive Summary, Centro Internacional de Agricultura Tropical (CIAT), Cali, Colombia, 44 p.

## OUTLINE OF THE REPORT

|   |     |
|---|-----|
| 1. <b>TSBF-CIAT RESEARCH FOR DEVELOPMENT STRATEGY</b> (121 kb) .....  | 1   |
| 2. <b>PROJECT DESCRIPTION AND LOGFRAME</b> (111 kb) .....   | 6   |
| 3. <b>RESEARCH HIGHLIGHTS</b> (72 kb) .....   | 23  |
| 4. <b>OUTPUTS, OUTPUT TARGETS, OUTCOMES AND IMPACTS</b> (75 kb)   |     |
| <b>Output 1: Biophysical and socioeconomic processes understood, principles, concepts and methods developed for protecting and improving the health and fertility of soils</b> (823 kb) .....                                       | 32  |
| <b>Output 2: Economically viable and environmentally sound soil, water, and Nutrient management practices developed and tested by applying and integrating knowledge of biophysical and socio-economic processes</b> (294 kb) ..... | 104 |
| <b>Output 3: Partnerships and tools developed and capacity enhanced of all stake-Holders for improving the health and fertility of soils</b> (167 kb) .....   | 138 |
| <b>Output 4: Improved rural livelihoods through sustainable, profitable, diverse And intensive agricultural production systems</b> (743 kb) .....   | 164 |
| <b>Output 5: Options for sustainable land management (SLM) practices for social profitability developed, with special emphasis on reversing land degradation</b> (97 kb) ....   | 238 |
| 5. <b>ANNEXES</b> (156 kb)  |     |
| 1. <b>LIST OF STAFF</b> .....   | 248 |
| 2. <b>LIST OF STUDENTS</b> .....  | 250 |
| 3. <b>LIST OF PARTNERS</b> .....  | 262 |
| 4. <b>LIST OF PROPOSALS FUNDED</b> .....  | 265 |
| 5. <b>LIST OF PUBLICATIONS</b> .....  | 272 |

## TABLE OF CONTENTS

|   |           |
|---|-----------|
| <b>1. TSBF-CIAT STRATEGY .....</b>                            | <b>1</b>  |
| <b>A. Research for development strategy of tsbf-ciat.....</b> | <b>1</b>  |
| <b>B. Organization of the report.....</b>                     | <b>4</b>  |
| <b>C. Project outputs and their link to strategy.....</b>     | <b>4</b>  |
| <b>2. PROJECT DESCRIPTION AND LOGFRAME.....</b>               | <b>6</b>  |
| <b>3. RESEARCH HIGHLIGHTS .....</b>                           | <b>23</b> |
| <b>4. PROJECT OUTCOME.....</b>                                | <b>28</b> |

### **Output 1: Biophysical and socioeconomic processes understood, principles, concepts and methods developed for protecting and improving the health and fertility of soils.. 32**

|                       |           |
|-----------------------|-----------|
| <b>Rationale.....</b> | <b>32</b> |
|-----------------------|-----------|

|                                     |           |
|-------------------------------------|-----------|
| <b>Key research questions:.....</b> | <b>32</b> |
|-------------------------------------|-----------|

### **Output target 2008**

|  |           |
|--|-----------|
| <b>➤ <i>Practical methods for rapid assessment and monitoring of soil resource base status developed .....</i></b> | <b>33</b> |
|--|-----------|

### **Published work**

Challenges and opportunities, 957-964..... 41

**Work in progress**

Development Domains for the Conservation Agriculture (CA) Austria Project in Central Mozambique  
K. Risinamhodzi ..... 42

Effect of farmer management strategies on spatial variability of soil fertility, crop nutrient uptake and maize fertilizer requirement in contrasting agro-ecological zones in Zimbabwe.  
E. Masvaya, J. Nyamangara, S. Zingore, R.J. Delve, and K.E. Giller,..... 46

Determinants of Fertilizer Use in the Chinyanja Triangle of Malawi, Zambia and Mozambique.  
S. Zingore, R. Mageta, J. Njuki, M. Mapila, R.J. Delve,..... 46

**Work in progress**

Detailed characterization study on legume production, marketing and consumption, and nutritional status of rural households.  
P. Pypers, S. Kantengwa, K. Bishikwabo, J.P. Lodi-Lama, and B.Vanlauwe..... 53

**Output target 2009**

➤ *Decision tools for soil biota and nutrient management developed and disseminated to stakeholders*..... 60

**Published work**

Andren, O., Kihara, J., Bationo, A., Vanlauwe, B., Katterer, T. Soil climate and decomposer activity in sub-Saharan Africa, estimates from standard weather station data – used in soil carbon balance calculations. In: Advances in integrated soil fertility management in sub Saharan Africa: challenges and opportunities, (eds) Bationo, A., Waswa, B., Kihara, J. and Kimetu, J. *Ambio* 36, 2007, 379-386..... 60

### **Completed work**

The prospects of reduced tillage in tef (*Eragrostis tef* Zucca) in Gare Arera, West Shawa Zone of Oromiya, Ethiopia. *Soil Tillage Research*, In Press  
B. Tulema<sup>1</sup>, J.B. Aune<sup>2</sup>, F.H. Johnsen<sup>2</sup>, and B. Vanlauwe<sup>3</sup> ..... 61

### **Output target 2009**

➤ *Knowledge on relationships between soil fertility status and the nutritional quality of bio-fortified crops is used by development partners to target production of these crops ....* 62

### **Work in progress**

Relationship between soil fertility and nutritional quality of bio-fortified bean grains: a G by E analysis of Fe contents in grains of beans grown in Sud-Kivu and Umutara.  
P. Pypers, D. Kagabo, J. Mbikayi, and B. Vanlauwe ..... 62

### **Output target 2009**

➤ *Sufficient knowledge on mechanisms driving tolerance to drought and low soil P is available to guide breeding efforts* ..... 69

### **Output target 2010**

➤ *The role of soil organic matter in regulating soil-based functions underlying fertilizer use efficiency and crop production understood* ..... 69

### **Published work**

Bationo, A. Kihara, J. Vanlauwe, B. Waswa, B.S. and Kimetu, J. (2007) Soil organic carbon dynamics, functions and management in West African agro-ecosystems. In: *Advances in integrated soil fertility management in sub Saharan Africa: challenges and opportunities*, (eds) Bationo, A., Waswa, B., Kihara, J. and Kimetu, J.: *Agricultural Systems Journal* 94:13-25 ..... 69

P. Mapfumo, F. Mtambanengwe, and B. Vanlauwe, 2007 Organic matter quality and management effects on enrichment of soil organic matter fractions in contrasting soils in Zimbabwe. *Plant and Soil* 296, 2007, 137-150..... 70

**Work in progress**

Challenges for replenishing soil fertility in depleted fields: evidence from long-term trials in Zimbabwe.  
S. Zingore, E.N. Masvaya, J. Nyamangara, R.J. Delve, and K.E. Giller..... 71

Changes in Soil Organic Matter as Influenced by Organic Residue Management Regimes in Selected Experiments in Kenya, Challenges and opportunities, 457-469  
B.S. Waswa, D.N. Mugendi, B. Vanlauwe, and J. Kung'u,..... 72

Organic resource quality influences short-term aggregate turnover and soil organic carbon dynamics.  
P. Chivenge, B. Vanlauwe, R. Gentile, and J. Six..... 72

Incorporation of new nitrogen in aggregate size fractions and the short-term dynamics are influenced by organic resource quality.  
P. Chivenge, B. Vanlauwe, R. Gentile and J. Six..... 77

Short-term N dynamics as affected by organic resource quality and fertilizer application in Central Kenya.  
R. Gentile, B. Vanlauwe, J. Six ..... 81

Genetic diversity of Rhizobia nodulating promiscuous soybean varieties in Kenya.  
V. Wasike, D. Lesueur, B. Vanlauwe..... 83

Survey of the biodiversity of termite functional group across the sub-humid to semi-arid agro-ecological zones of East and West Africa under low input cropping systems.  
F.O. Ayuke, B. Vanlauwe, L. Brussaard, D. Odee, M.M. Pulleman..... 89

➤ *Functional interpretations of belowground biodiversity made and linked to ISFM and IPM*..... 94

**Work in progress**

➤ *Crop nutrient requirement, congruence of nutrient demand and nutrient supply and impacts on nutritional quality of food products understood*..... 94

**Work in progress**

Options for soil fertility amendment on the Walungu axis in Sud-Kivu.  
P. Pypers, E. Vandamme, J.-M. Sanginga, L. Lubanga, M. Manzekele, and B. Vanlauwe, ... 94

### **Work in progress**

Natural Resource Management Options demonstrated and evaluated in the mandate areas of the CIALCA / TSBF-CIAT project.

P. Pypers, S. Kantengwa, J.P. Lodi-Lama, K. Musale, S. Mapatano, L. Nabahungu, T. Ngoga, C. Ndayisaba, F. Habitigeke, J. Lunzehirwa, W. Bimponda, L. Lubanga, T. Hangy, J.M. Sanginga, K. Bishikwabo, M. Manzekele, A. Chifizi, P. Sanginga, and B. Vanlauwe..... 107

### **Output target 2009**

➤*The potential for occurrence of positive interactions between organic and mineral inputs is evaluated for the most common cropping systems in each mandate area.....* 119

### **Published work**

Bationo, A., Vanlauwe, B., Kihara, J. and Kimetu, J. (2007) Soil organic carbon dynamics, functions and management in West African agro-ecosystems. In: Bationo, A, Vanlauwe, B., Kihara, J. and Kimetu, J. (eds). Advances in integrated soil fertility management in sub-Saharan Africa: Agriculture Systems 94: 13 - 25 ..... 119

### **Work in progress**

Effects of soil fertility management practices on soil bio- physical properties: a case for murewa smallholder farming.

N. Dunjana, S. Zingore, J. Nyamangara, and R.J. Delve..... 121

### **Output target 2009**

➤*Throughout the Institute project life, new questions generated in the evaluation efforts of the different target outputs are addressed and fed back to these evaluation activities.* 121

### **Output target 2010**

➤*Cereal – legume systems with improved germplasm as entry point tested, adapted and validates to farmer conditions in savanna areas.....* 122

### **Published work**

Zingore, S., Murwira, H.K., Delve, R.J., Giller, K.E. Soil type, management history and current resource allocation: Three dimensions regulating variability in crop productivity on African smallholder farms. Field Crops Research, 101: 296-305 ..... 122

## Completed Work

Integrated management of *Striga hermonthica*, stemborers, and declining soil fertility in Western Kenya. Field Crops Research, In Press.

B. Vanlauwe, F. Kanampiu, G.D. Odhiambo, H. de Groot, L. Wadhams, and Z.R. Khan 129

Evaluation of the potential of arbuscular mycorrhizal fungi to enhance the initial growth of tissue culture bananas

B. Vanlauwe, N. Sanginga, E. Kahangi, T. Losenge, D. Odee, A. Elsen, and J. M. Jefwa, 130

## Work in progress

Conservation agriculture for soybean production.

I. Vandeplass, L. Driessens, S. Deckers, R. Merckx and B. Vanlauwe. .... 131

Determination of genetic coefficients of dual purpose soybean varieties and their agro-ecological potential.

A. Nyambane, V. Wasike, M. Corbeels, P. Tittonell, B. Vanlauwe..... 132

***Progress towards achieving output level outcome*** ..... 135

*Technologies, systems and soil management strategies adopted and adapted through partnerships*

***Progress towards achieving output level impact***..... 136

*Adapted technologies contribute to food security, income generation and health of farmers*

**Output 3: Partnerships and tools developed and capacity enhanced of all stakeholders for improving the health and fertility of soils** ..... 138

**Rationale** ..... 138

**Key research questions** ..... 139

**Output targets 2009** ..... 139

***➤Farmer-to farmer knowledge sharing and extension through organized field trips and research activities result practices in at least two sites*** ..... 139

## Completed work

AfNet Research Highlights from West Africa..... 139

AfNet Research Highlights from Eastern Africa..... 152

## **Output targets 2008**

**➤ *Web content in the BGBD website enhanced to contain data and information on BGBD taxonomy and species identification ..... 157***

## **Output targets 2009**

**➤ *Profitable land use innovations scaled out beyond pilot learning sites through strategic alliances and partnerships, and application of alternative dissemination approaches..... 158***

## **Output targets 2009**

**➤ *Strategies for institutionalization of participatory NRM approaches and methodologies established..... 158***

## **Output target 2010**

**➤ *Research on practical strategies and decision support tools for integrated water and nutrient management, including organic and mineral nutrient sources is further strengthened and added to the existing organic resources DSS/database..... 158***

## **Published work**

Rufino, M.C., Tittonell, P., van Wijk, M.T., Castellanos-Navarrete, A., Delve , R.J., De Ridder, N. and Giller, K.E. (2007) Manure as a key resource within smallholder farming systems: Analysing farm-scale nutrient cycling efficiencies with the NUANCES framework. *Livestock Science*. 112: 273–287..... 158

Delve, R. J., Huising, J.E. and Bagenze, P. (2007) Target area identification using a GIS approach for the introduction of legume cover crops for soil productivity improvement: a case study eastern Uganda. *African Journal of Agricultural Research* 2: 512-520 ..... 159

***Progress towards achieving output level outcome ..... 160***

***Strengthened and expanded partnerships for ISFM facilitate south-south exchange of knowledge and technologies***

***Progress towards achieving output level impact..... 161***

***Improved institutional capacity in aspects related to ISFM and SLM in the tropics contribute to agricultural and environmental sustainability***

### **Completed work**

Determinants of the decision to adopt or not to adopt soil fertility replenishment resources in the central highlands of Kenya. Nutrient Cycling in agro-ecosystems, submitted.  
J. Mugwe, D. Mugendi, M. Mucheru-Muna, R. Merckx, J. Chianu, and B. Vanlauwe,..... 219

### **Work in progress**

Rotation Effect of Soybean on the Production of the Subsequent Maize Crop.  
I. Vandeplass, L. Driessens, S. Deckers, R. Merckx and B. Vanlauwe ..... 219

### **Output targets 2009**

➤ *The contribution of multiple stress adapted germplasm in driving overall system resilience is understood for the conditions occurring in all mandate areas..... 222*

### **Output target 2009**

➤ *Products of the trade-off analysis are guiding the introduction and evaluation of alternative NRM options, better suited to the farmer production objectives and the environment of the actions sites ..... 222*

### **Published work**

Zingore, S., Murwira, H.K., Delve, R.J. and Giller, K.E. (2007) Influence of nutrient management strategies on variability of soil fertility, crop yields and nutrient balances on smallholder farms in Zimbabwe. Agriculture Ecosystems and Environment, 119: 112-126 ..... 222

### **Completed work**

Using the crop simulation model APSIM to generate functional relationships for analysis of resource use in African smallholder systems: aggregating field-scale knowledge for farm-scale models (accepted for publication in Agricultural Systems).  
R. Chikowo, M. Corbeels, P. Tittonell, B. Vanlauwe, A. Whitbread and K.E. Giller ..... 223

## **Work in progress**

Integrated evaluation of conservation agriculture (CA) technologies using multipurpose grain legumes (MGL) to improve productivity and sustainability of cotton-cereal systems in the Mid Zambezi Valley..... 224

Exploring options for integrated soil fertility management with the aid of simulation modeling. I. Model calibration and testing.  
P. Tittonell, M. Corbeels, and B. Vanlauwe ..... 224

Exploring options for integrated soil fertility management with the aid of simulation modeling. II. Applications of manure and mineral fertilizers.  
P. Tittonell, M. Corbeels, and B. Vanlauwe ..... 227

Exploring options for integrated soil fertility management with the aid of simulation modeling. III. Rehabilitating degraded soils.  
P. Tittonell, M. Corbeels, and B. Vanlauwe ..... 230

Exploring below ground biodiversity and related ecosystem services: prospects and perspectives. In proceedings of the 23<sup>rd</sup> conference of the Soil Science Society of East Africa, 20-24 November 2006  
E. J. Huising, and P. Okoth..... 233

## **Output target 2010**

***➤Improve linkages with the private sector to improve access to fertilizer and develop recommendation for its use by farmers and other stakeholders involved..... 233***

## **Work in progress**

Development and promotion of site- and crop-specific fertilizer management strategies for increasing crop productivity in southern Africa.  
S. Zingore, R. Magreta and R.J.Delve ..... 233

***Progress towards achieving output level outcome..... 235***

*Partners promoting resilient production systems with multiple benefits (food security, income, human health and environmental services)*

***Progress towards achieving output level impact..... 236***

*Improved resilience of production systems contribute to food security, income generation and health of farmers*

| <b>Work in progress</b>   |            |
| <b>Output target 2009</b>   |            |
| <i>➤30% of partner farmers in pilot sites used SLM options that arrested resource degradation and increased productivity in comparison with non-treated farms.....</i>  | <i>245</i> |
| <i>➤75% of stakeholders in target areas have an improved capacity for collective action and local policy negotiation and implementation of integrated land use practices using integrated agricultural research for development .....</i> | <i>245</i> |
| <i>➤The benefits of community-based watershed management innovations quantified and disaggregated by wealth and gender .....</i>  | <i>245</i> |

## Output target 2010

➤ *Scale-up research on soil fertility gradient to farm and landscape levels by conducting one or two carefully designed, integrated studies in collaboration with other CIAT scientists.....* 245

### Completed work

The Impact of Land Tenure on Maize Crop Response under Small-scale Farming Systems in North-east Zimbabwe: Paper presented at “Utilisation of diversity in land use systems: Sustainable and organic approaches to meet human needs”, Tropentag, October 9-11, 2007, Witzenhausen.  
C. Monje, J. Guillermo Cobo, G. Dercon, G. Cadisch, R. Delve..... 245

### Work in progress

Managing soil fertility diversity at farm and village scales to enhance resource use efficiencies in smallholder farming systems: a case from Murewa District, Zimbabwe.  
S. Zingore, P. Tittonell, M.T. van Wijk and K.E. Giller ..... 246

Sustainable soil fertility management in small holder farming systems in Murewa District, Zimbabwe: fitting soil fertility technologies and socioeconomic niches within farms and villages.  
P. P. Mahembe ..... 247

**Progress towards achieving output level outcome.....** 247

*Principles of sustainable land management integrated in country policies and programs*

**Progress towards achieving output level impact.....** 247

*Reversing land degradation contribute to global SLM priorities and goals*
